Healthy Workplaces Lighten the Load campaign

Healthy Workplaces Lighten the Load aims to raise awareness of work-related musculoskeletal disorders (MSDs) and the need to manage them and to promote a culture of risk prevention.

A wide range of campaign materials, tools and publications can be downloaded in 25 languages from the [campaign website](#). A variety of media and PR activities are undertaken to publicise the campaign via, for example, press releases, newsletters, and social media.

Some key dates of the campaign include the official campaign launch in October 2020, which also marks the start of the Good Practice Awards competition. Other events and meetings involving the national focal points and other campaign partners are the European Weeks for Safety and Health at Work (each year at the end of October), a Good Practice Exchange event with official campaign partners and, finally, the Healthy Workplaces Summit and Good Practice Awards Ceremony in November 2022.
